Data Science Career Track
Completion Criteria

In order to successfully complete Springboard's Data Science Career Track course and receive a certificate of completion, you must ensure the following:

1.	All mandatory learning resources are reviewed and marked as complete
2.	All career coaching calls are conducted, marked as complete by students, and logged by career coaches
3.	All projects are submitted, including: ● All career-related projects ● 2 take-home challenges for interview readiness
4.	"Meet expectations" on all evaluated projects: **Technical** ● All mandatory case studies and mini-projects ● Capstone project 1 (including subparts) ● Capstone project 2 (including subparts) ● Capstone project 3 **Career** ● LinkedIn profile

	● Resume
5.	Complete mock interviews, including: ● Behavioral interview ● Coding interview ● Project walkthrough ● Technical interview

If you already have a data science job or wish to waive Springboard's career support and job guarantee, you can earn a certificate of completion without completing the career resources. Contact your student advisor to learn more.
